Curriculum Vitae

Risky Satria

Product Owner | Product Manager | Project Manager

Hello, I'm Risky Satria. I am choosing to pivotal career path from **product engineering** to **management**. I've already learned to be the **Technical Product Manager**. Also, I have experiences in **Project Management**. As we know, A product manager can be a product owner in the Scrum framework of Agile methodology of SDLC. The reason that I chose to pivot a career path **is the future of AI and my passion**, especially in Software Development.
